A/B, 3, 2/30

TO: File

FROM: [redacted]

SUBJECT: SI and H Experimentation, 8 December 1953

On Tuesday 8 December 1953, SI and H experimentation and research was carried on in Room 20, Building 13 by Mr [redacted] with the following subjects: Misses [redacted] and [redacted]

A

Due to the fact that all subjects present except Miss [redacted] were beginning the H work, the writer converted the evening to primarily a basic discussion of the H work with certain illustration of H techniques and methods using [redacted] as the subject. The writer used [redacted] to illustrate PH; to illustrate the production of illusion and hallucination and to demonstrate certain other phenomena that occur under hypnosis with good subjects. The writer concluded the evening by having all hands listen to a special tape recording made by one of the cleared contacts in hypnosis.

No attempts were made ~~but~~ by the writer except with Miss [redacted] directly on hypnosis with the other individuals present but it would appear from the number of questions asked that all subjects present were extremely interested in the work.
